## **DOCTOR OF CLINICAL PHARMACY**

### **Education**

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| <b>2011-2012</b>  | <b>postdoctoral training, Faculty of medecin</b> – Laval University, Quebec, Canada      |
| <b>2009-2010</b>  | <b>postdoctoral training, Faculty of pharmacy</b> – Laval University, Quebec, Canada     |
| <b>2004-2008</b>  | <b>PhD in the INSERM unit 863-</b> Claude Bernard Lyon 1 University.                     |
| <b>2007-2008</b>  | <b>DU Pharmacie Clinique Oncologique-</b> Claude Bernard Lyon 1 University.              |
| <b>2003- 2004</b> | <b>DEA INGÉNIERIE MÉDICALE ET BIOLOGIQUE</b> - Claude Bernard Lyon 1 University.         |
| <b>2002-2003</b>  | <b>MAÎTRISE EN SCIENCES BIOLOGIQUES ET MÉDICALES</b> - Claude Bernard Lyon 1 University. |
| <b>1993-1998</b>  | <b>PHARMD</b> – University Tishreen - Syria.                                             |
| <b>1992-1993</b>  | <b>SCIENTIFIC BACCALAUREATE</b>                                                          |

### **PROFESSIONAL EXPERIENCE**

|                   |                                                                                                                                                  |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Since 2013</b> | Professor at faculty of pharmacy, Tishreen university                                                                                            |
| <b>Since 2012</b> | Professor at faculty of pharmacy, Alandalus university                                                                                           |
| <b>2011-2012</b>  | postdoctoral trainee, faculty of medicine, Laval university<br>Techniques : perfection of utilization of SAS program,»                           |
| <b>2009-2010</b>  | postdoctoral trainee, faculty of pharmacy, Laval university<br>Techniques : cellular Culture, q-PCR, Western Blot, Patch-clamp, retroperfusion,» |
| <b>2004-2008</b>  | PhD student at INSERM 863<br>Techniques : cellular Culture, RIA, Franz cell.                                                                     |
| <b>2003-2004</b>  | trainee of DEA at L.A.G.E.P. Laboratoire d'Automatique et de Génie de Procédés (CPE - Lyon)<br>Techniques : HPLC, Franz cell., Immuno-staining.  |
